EGD (UPPER ENDOSCOPY) INSTRUCTIONS

1. Stop taking Aspirin, anti-inflammatory, and blood thinners (like Coumadin) for one week before procedure.

2. NOTHING TO EAT OR DRINK AFTER MIDNIGHT on the night before the procedure.

3. You may take important medicines, like heart medicines, blood pressure medicine, etc. with a small sip of water on the morning of your procedure. If your procedure is scheduled early (before 10 a.m.), you may want to wait until after the procedure to take your medicine.

4. If you are Diabetic, DO NOT TAKE YOUR MORING DOSE OF INSULIN, until you are able to eat after the procedure.

5. You will be sedated for your procedure. You MUST have a responsible adult accompany you for the procedure who can drive you home and be with you for a few hours following your procedure. Family members and/or driver will need to stay at the clinic until you are discharged home. The physician will need to speak with them after your procedure. If you do not have someone to drive you home, your procedure will be rescheduled.

6. Leave jewelry and valuables at home. Please wear comfortable clothes and shoes on the day of your procedure.

7. Read the information pamphlet carefully. If you have any questions, please discuss them with your doctor or nurse when you come for your procedure.
